

# Heartland Owners Club Events Calendar

## Abstract

It is now possible to subscribe to the Heartland Owners Club Events Calendar from your personal calendars, such as Google, Apple and any calendar application that can use the iCal protocol and add a subscription via a link (URL).

## Why is this important?

For club members who'd prefer to know about what's going on within the club in terms of events but who'd rather not always have to look them up on the Heartland Owners Forum, having these events show up on their calendar may be a convenience to them.

## What can I do with these events when they show on my calendar?

You can view the event, you can open the event and you can click on the event link to open the full event on the forum. You cannot edit the event. You can remove the HOC Events Calendar from your calendar system.

## What does the calendar look like?

See the image below for an example of what it looks like in Google Calendar as viewed on a computer.
